Fans can also follow their favorite players and track their progress on the roster. This information is useful for fantasy football owners, too, as it helps them make informed decisions about which players to pick and drop. Let's take the 2020 season as an example. The Packers started the year with a stacked roster, but injuries to key players led to changes in the depth chart.

Quarterback Aaron Rodgers was out with a knee injury, forcing DeShone Kizer into action. However, even with Rodgers out, the Packers managed to maintain their winning streak. This was largely due to the team's depth at wide receiver and running back, ensuring that the offense continued to produce.
