Colorado law requires emissions testing for passenger cars, light-duty trucks, and SUVs that are less than 20 years old and registered in specific counties, including Denver, Jefferson, and Arapahoe. The goal is to keep ozone-forming pollutants in check and to meet federal air-quality standards. Air Care Colorado administers the program on behalf of the state, using equipment that measures tailpipe output against the EPA's acceptable limits. Passing the test is a prerequisite for receiving a renewed registration. The basic inspection fee charged by Air Care Colorado is modest compared with many car-ownership costs. Most drivers report paying a flat rate that covers the diagnostic scan and a quick visual check. If the vehicle fails, the cost can rise because of required repairs or retesting. Common follow-up repairs include fixing a malfunctioning oxygen sensor, addressing a loose gas cap, or replacing an aging catalytic converter. While the repair expense varies by make and model, the initial test fee is designed to be an. Insurance premiums usually represent the largest annual vehicle cost, often exceeding the
